# ***WP 2.4: Issues that are likely to play a key role in the implementation of the cooperation mechanism***

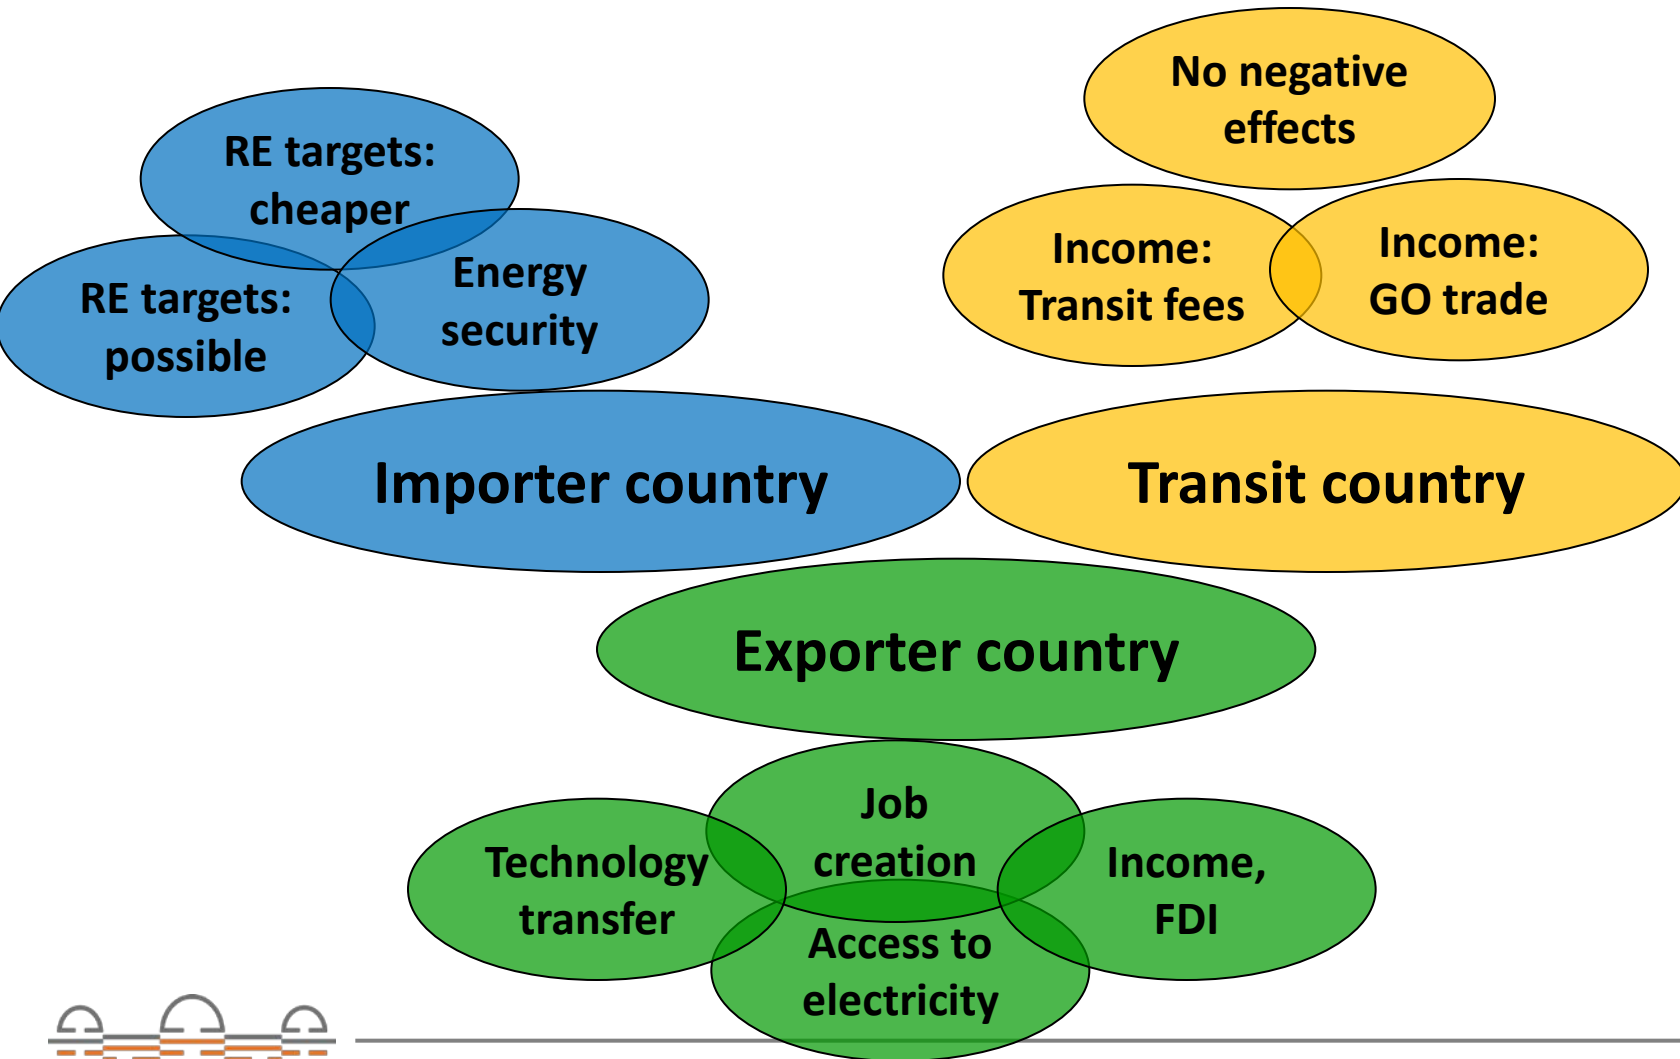

**Saskia Ellenbeck, Johan Lilliestam**

**Potsdam Institute for Climate Impact Research**

# Multi-level framework

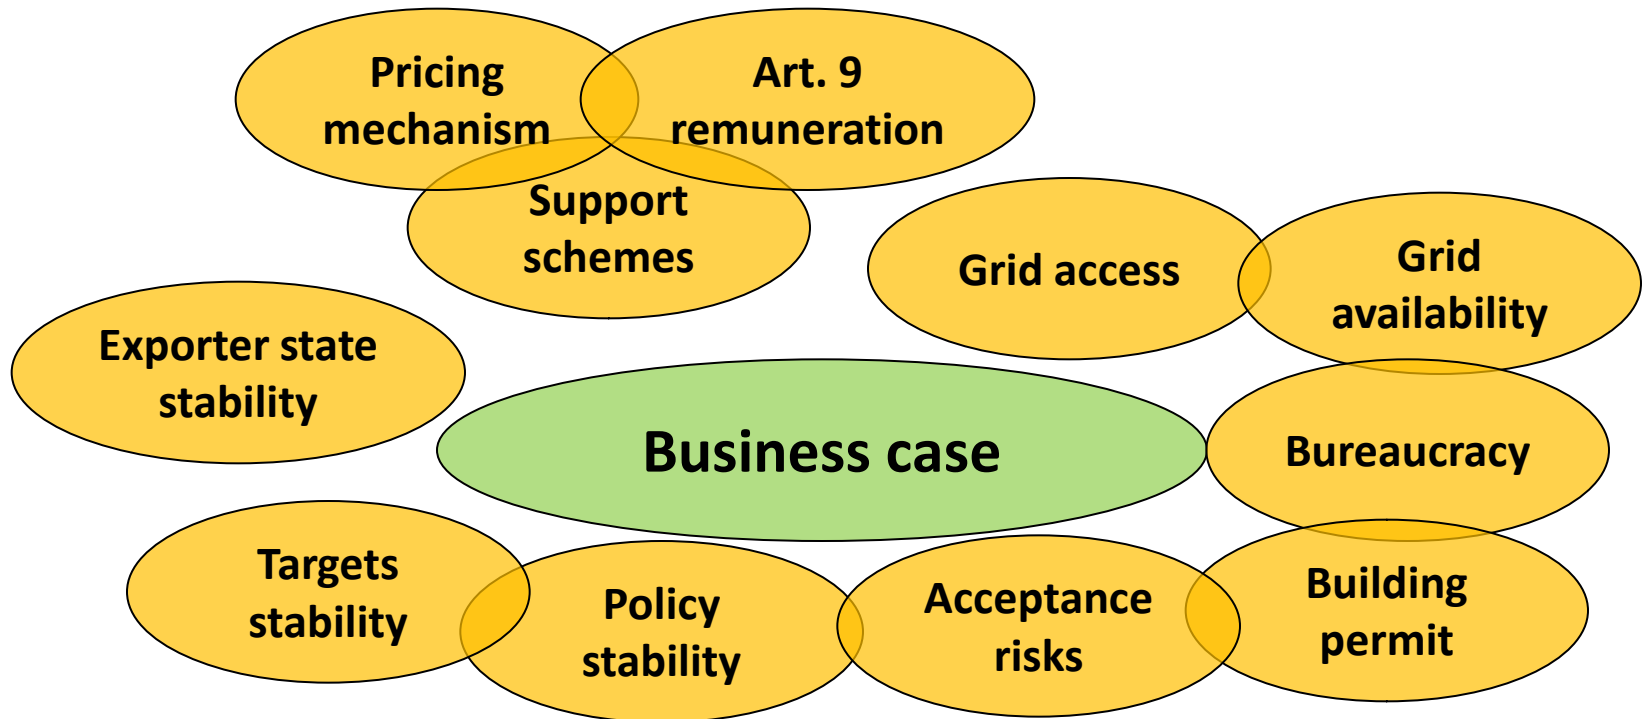

# Macro level: why countries want to join

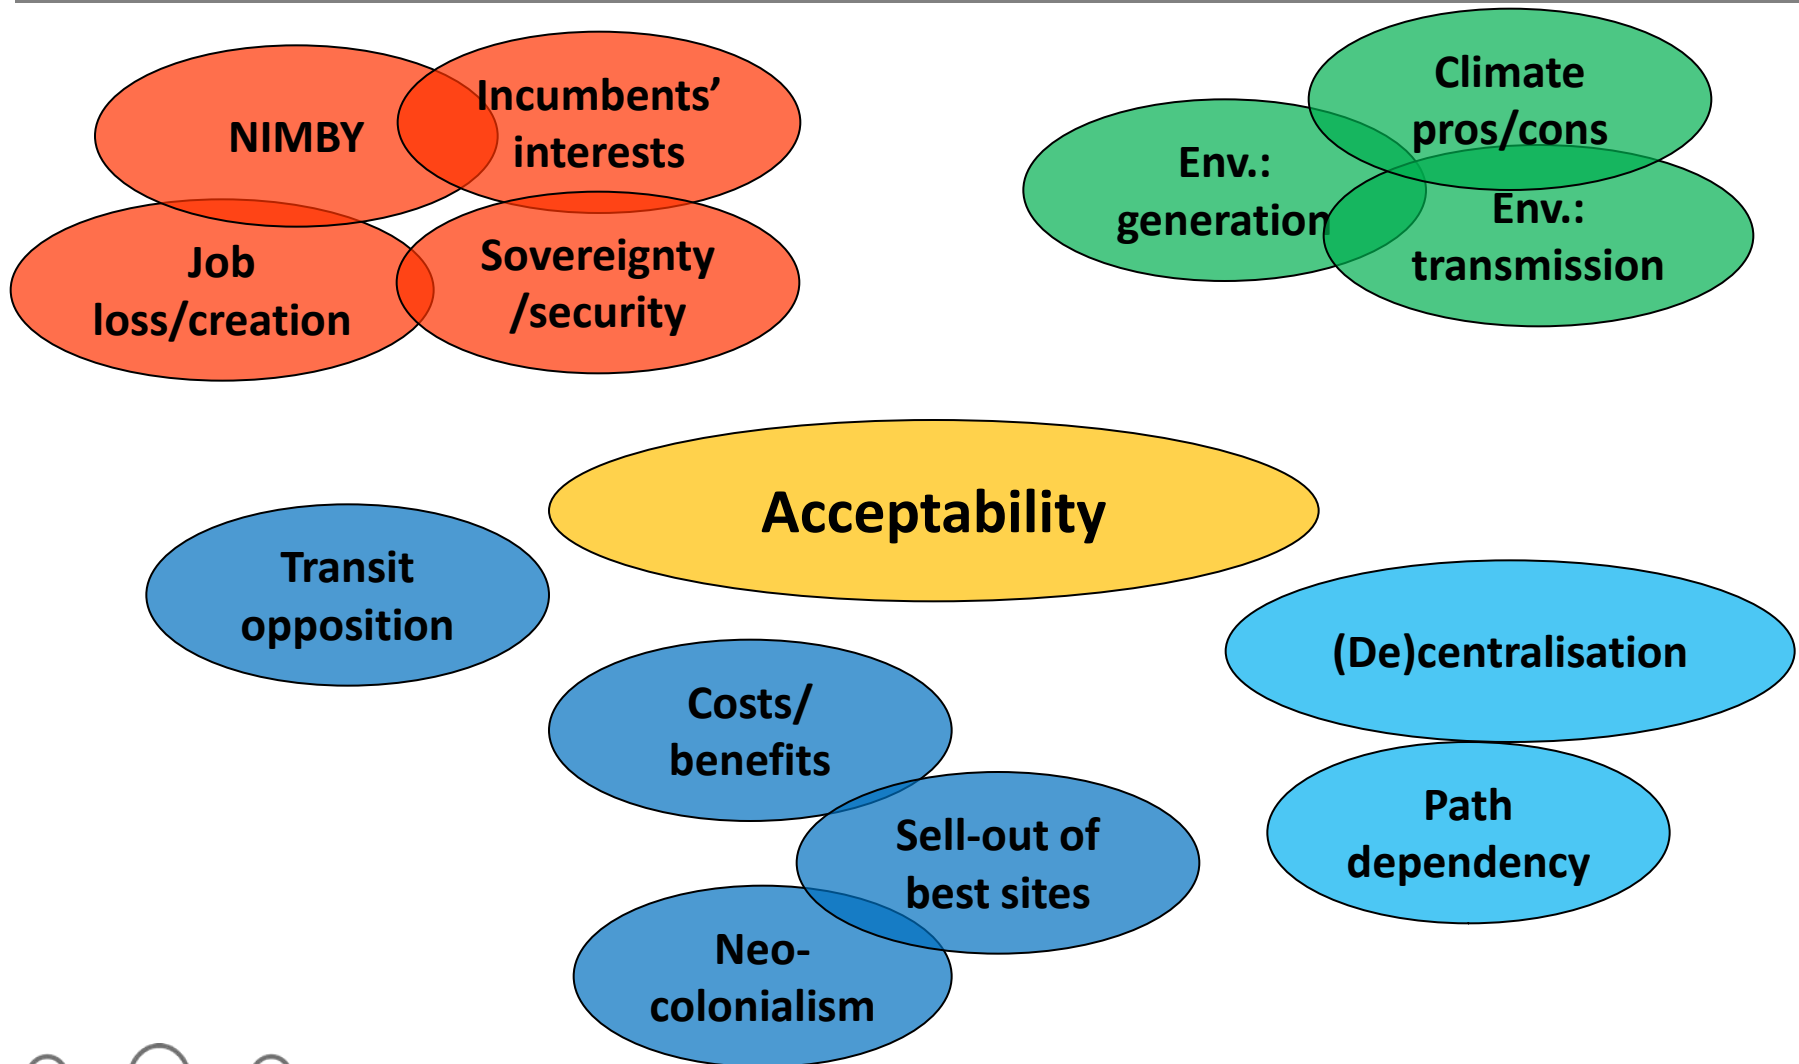

# Micro level: the business case

---

# Discourse level: acceptability and arguments

# Issues to consider: summary

---

- **Myriads of issues to consider, on three different levels**
- **Interdependent levels, all with path dependencies and inertia**
  - **Perceptions depend on actions of micro/macro actors**
  - **Micro actors actions depend on macro frame and acceptance**
  - **Macro actors actions depend on perceptions**
- **Possibility for veto on each of the levels**
- **Successful policies must acknowledge all three levels**
